AGREEMENT MADE BY DOLE WAS IGNORED

FRANK LUCWEIGO FILES SUIT IN THE SUPREME COURT FOR DAM-
AGES FROM THE TERRITORY AND THE RAPID TRANSIT CO.—
AGREEMENT MADE BY DOLE HAS BEEN IGNORED, HE SAYS—
ACTION IS BEGUN ORIGINALLY IN SUPREME COURT.

Frank Lucweigo has brought a suit in the Supreme Court against the Territory and the Honolulu Rapid Transit Company for damages and to cancel a deed which he claims to have made to the Territory under an agreement made by Governor Dole but never carried out by the Territory. He claims to have deeded property to the Territory for certain considerations which Governor Dole agreed to carry out and says that by mistake of both sides it was held that Dole had power to make such an agreement, but that in fact Dole had no authority to commit the Territory to the agreement and that now, as a matter of equity, he should have compensation.

Lucweigo dicker with the government was made when the Fort street extension was under consideration. In his complaint he sets forth that he deeded 9,640 square feet of land to the Territory, in exchange for another piece of land and in consideration of an agreement signed by Governor Dole, to remove Lucweigo's buildings from the land which the latter deeded.

Lucweigo says that the removal was not accomplished until long after the

time set for it, and that it was so badly done that the buildings had to be practically rebuilt. The agreement in question was negotiated by Dole, Superintendent of Public Works H. E. Cooper and Attorney General Lorrin Andrews, and it was signed by Dole. The plaintiff in the suit filed today says that it was understood by all parties that Dole had power to make such an agreement, but that it is admitted now that the Superintendent of Public Works, H. E. Cooper, was the man who should have signed it, in order to commit the Territory to the bargain. As there was no legal contract, on account of the signature being only by Dole, the plaintiff has no remedy by an action at law and he asks the Supreme Court, in an equity proceeding, to take it up.

Lucweigo asks \$5,000 damages from the Territory and \$1,000 from the Rapid Transit, the latter having used his lands unlawfully, as is alleged, for its tracks. He asks also that his land be returned to him and that the railway company be enjoined from using it further. The land in question is now a part of Fort street. C. Creighton is Lucweigo's attorney.

CHARTS SHOW DEEP WATER

AMERICAN MAPS ARE NO BETTER
THAN ANY OTHERS WHEN DIAMOND HEAD IS CONSIDERED.

The fact that the last two ships to pile up on the Diamond Head reef have been, respectively British and French, both strangers in these waters, has caused a number of jibes to be made at the expense of the cartographers of those two usually careful countries, but an investigation of the latest American charts of the waters in the neighborhood of Diamond Head show that there is a large sized beam in the eye of those responsible for these matters at home.

The Britisher Don and the Frenchman Ernest Reyer both went ashore at practically the same point and in both cases the blame was placed on faulty charts.

This morning an examination of the most recent charts of the Diamond Head waters in the Territorial Surveyor's office showed that the local records are also astray. At the very point on which the Ernest Reyer struck the chart shows 9 fathoms, or 54 feet and even close in to the reef, at the very edge in fact, 3 1/2 fathoms is marked. All along the immediate shore the soundings are given as 10, 9, 8, 12, 10 and 11 fathoms ample water of course for either of the vessels which came so near going to Davy Jones' locker.

The latest chart is compiled from the Hawaiian Government Survey of 1878, for shorelines and topography; from the survey of the U. S. S. California for hydrography and corrected by the U. S. S. Pensacola, by the U. S. S. Boston in 1892 and the U. S. S. Bennington in 1897.

LOOKING IN THE RIGHT PLACE.
A physician in New Orleans hopes soon to locate the yellow fever germ. There is no doubt that he is looking in the right neighborhood.

The courts are taking in hand the music publishers who pirate melodies, but nothing can be done with the composers who do the same thing.

FOR THE COMING POULTRY SHOW

ARRANGEMENTS CONCLUDED FOR
THE BIG SHOW WHICH IS TO
TAKE PLACE NEXT MONTH.

A special meeting of the Hawaiian Poultry Association was held last evening at the auction rooms of Will E. Fisher for the purpose of appropriating money for the expenses of the coming show. The exhibit will be held on December 7, 8 and 9.

Governor G. R. Carter has expressed a desire to put up a very substantial prize and G. P. Wilder has donated a silver cup for the largest number of exhibits by any one person.

The Exhibition Committee reported that they had engaged from W. G. Irwin & Co., a large well lighted and spacious hall on Merchant street, formerly occupied by the C. F. Herrick Carriage Company.

Admission to the exhibition will be twenty-five cents on Thursday and Friday and 10 cents for children under ten years old on Saturday.

THE CONDOR AT APIA AGAIN

THE RETURN TO HER STATION
OF THE GERMAN WAR VESSEL
THAT VISITED HERE.

The Samoanische Zeitung in announcing the return to Apia of the German warship Condor says:

The S. M. S. Condor left Apia on the 15th of August and called at both Christmas and Fanning Islands, stayed at each place a day and visited the shore. She arrived at Honolulu on the 30th August, two days later than was expected owing to having encountered very bad weather.

The Condor fired a salute while entering the harbor which was returned. All those on board had a wonderfully good time during their stay in Honolulu. Every one speaks most highly of the hospitality they received. There was some new diversion every day, and every evening music at the Symphony Club, where an open invitation was extended.

Perhaps the greatest festivity was a fete-banquet, held at beach, given by the Germans living at Hawaii, in honor of the officers and crew.

Long accounts of the affair appear in the Honolulu papers, and show that everyone thoroughly enjoyed himself, in fact as the Star says "it was a 'Hoch der Kaiser' night."

During the two Sundays the vessel lay in Honolulu the native band, conducted by Mr. Berger played to an overflowing audience.

Ribbons of "S. M. S. Condor" were so much sought after by the fair and dusky damsels of Hawaii that the supply was absolutely inadequate to meet the demand, and some tearful eyes were left behind.

The Condor arrived here on Sunday last at 7 a. m. and most of the residents hoisted their flags to welcome the vessel back.

MEDAL FOR MARKSMEN.
The National Rifle Association has sent Colonel Jones a "Members' Match Medal" for competition among the shots of Hawaii. It is made of bronze, with a gold center standing out in relief, bearing the inscription, "Members' Match Medal."

A similar medal is sent out by the National Rifle Association to each of its branches every year in order to stimulate interests in rifle shooting.

The local National Guard has recently been admitted to membership with the National Rifle Association.

The shoot for the medal will probably take place on New Year's Day—at 200, 300 and 500 yards ranges.

Only military rifles may be used, but anyone may join the Rifle Association and compete for the medal, whether he be a member of the National Guard or not.

from an acre planted in pines. The fruit grown for canning purposes average about four pounds in weight when grown in the usual haphazard way, but by careful cultivation attains a weight about fifty percent higher. The number of plants allotted to the acre is about 7000. On Maui the Fruit Company has begun to plant the pines closer together thus making the acre support 10,000 plants. This has been done in order to prevent the plants proper from being too luxuriant to the detriment of the fruit. With a yield of 14 tons of fruit to the acre the planter would have an income of \$175 as the company is ready to enter into a contract with the planter to take all the pines he can furnish at a price of \$12.50 per ton.

Allowing \$75 per acre for loss and cultivation, the planter would still net \$100 and a family with ten to fifteen acres devoted to the cultivation of pines would be assured of a comfortable living.—The Garden Island.

HALEIWA.
The Haleiwa Hotel, Honolulu's famous country resort, on the line of the Oahu Railway, contains every modern improvement and affords its guests an opportunity to enjoy all amusements—golf, tennis, billiards, fresh and salt water bathing, shooting, fishing, riding and driving. Tickets, including railway fare and one full day's room and board, are sold at the Honolulu Station and Travel & Company for \$5. For departure of trains, consult time table.

On Sundays, the Haleiwa Limited, a two hour train, leaves at 8:22 a. m.; returning, arrives in Honolulu at 10 p. m.

COUNTERFEIT MADE BY HAND

(Continued from page one).

an emergency in the finances of a soldier, but it has probably exposed the whole scheme.

A careful examination of the counterfeit ten-dollar bill now in the possession of District Attorney Breckons shows that it was made by hand, apparently carefully drawn with pen and ink. This is the bill which was offered at Spreckels bank while the transport Sherman was in port. Under the microscope it appears as a very poor imitation of the real bill. The portrait of McKinley is quite badly drawn. The general appearance of the bill, if merely glanced at in an ordinary way, is fairly good, however.

Only this one bill has come into the possession of the authorities here, and it is thought to be the only one in town. There was one other attempt to pass a bill, it is believed, at the Young Hotel. A soldier from the transport offered a bill at the bar, handing it to the bar-keeper folded up in such manner as to hide some portions. As he saw the bar-keeper opening it up and examining it, he quickly reached for it and handed out some silver.

The federal grand jury here will return some indictments, it is said, against some of the men now in custody, though there is believed to have been only these two attempts to pass the money here. District Attorney Breckons' investigations have led to some important revelations regarding the had money and the whole story of the making will probably eventually be revealed.

A large sum of the money was passed in Nagasaki, when the Sherman was there on her way here. Japanese were easily imposed on by the bogus bills and they were "stuck" to the amount of six or seven hundred dollars. In San Francisco another arrest was made yesterday as a result of investigations.

District Attorney Breckons said this morning that he knew where the money was made and who made it, but the whole story of the counterfeiting is an official secret so far. It is thought that Manila is where the work was done. The labor of making a ten-dollar bill by hand, as the one seized here was evidently made, would be worth at least ten dollars to an ordinary artist.

SHIPPING INTELLIGENCE

DEPARTING.
Friday, October 27.
Strmr. Mauna Loa, Simerson, for Maui and Hawaii ports, at noon.

PASSENGERS.
Departing.
Per strmr. Likelike, October 25, for Pelekuu: J. H. Wilson.
Per strmr. W. G. Hall, October 24, for Kaula ports: F. Carter, C. P. Herrick, Mrs. Broadbent, Miss Broadbent, Master Frank Broadbent, C. Choy Chin, E. Biela, J. P. C. Abel, Mrs. J. A. Owen, Mrs. M. Taylor, J. D. Willard, J. S. Molony, J. L. Robertson, E. R. Hendry, Sister Albertina, Miss Minnie Kanoho, K. Kiyama.

LEAVES CUSTOMS SERVICE.

Miss Laura M. Walker resigned her position as stenographer at the Custom House and left for the mainland by the transport Logan last Monday. Miss Walker was, in addition to being a stenographer, a news writer and wrote a number of articles on Hawaii for eastern papers.

Want Ads in The Star bring quick results. Three lines three times for 25 cents.

THE LOAN BILL ITEMS WHICH CARTER HAS PICKED OUT

(Continued from page one).

It transpired recently, however, that orders had been given for the construction of a sewer from the new immigrant corral on Channel street, next to the United States Immigration station.

This building was erected by the Planters Association, and the story went the rounds that the Governor only consented to have the sewer built at the expense of the Loan Fund after pressure had been brought to bear by Senator Faxon Bishop. The appropriation of \$20,500 for sewer extension on Oahu is not in the list of "General Appropriations" to which the governor referred in his letter.

"The Governor and I went over the Loan Bill very carefully," said C. S. Holloway, Superintendent of Public Works, this morning "and we saw that while some items are under the heading of different islands, they are more properly to be classed as for the good of the whole territory. The matter of sewers seems to me to be one of these primarily. Here are the items which will be proceeded with—"

Superintendent Holloway took a pencil and checked off the following on a copy of the Loan Act:

Extension of Wharf system.	
Honolulu	\$300,000
Educational buildings, Oahu:	
Kalihiwaena school	25,000
Kawaiahae school	1,500
Paia school	2,500
Educational buildings, Hawaii	18,000
Hilo High school	20,000
Schoolhouse, cottage and tank.	
Kaunahulu, North Kohala	1,500
Educational buildings, Maui	14,000
Educational buildings, Kauai	16,740
New buildings for Home of non-leprous male children of	
leprous parents	6,000
Water rights for Lahaina Water Works	30,000
Waialuku and Kahului Water Works	2,000
Honolulu Water Works, general	200,000
Koloa Water Works, Kauai	5,000
Waimea Water Works, Kauai	10,000
Kalaupapa and Kalaupapa Water Works	15,000

All of the foregoing items were in the list of "General Appropriations." The superintendent set a query mark against the items of \$5,000 for a court house and jail in North Kona, of \$3,500 for a court house at Paia, Maui and of \$1,500 for a court house at Keokea, Maui.

Proceeding under the separate island appropriations he checked off the extension of the Hilo sewer system, reducing the amount from \$20,000 to \$15,000.

The item of \$3,150 for the approaches from the Government road to McGreggor's landing was all that Maui got. Oahu's \$35,000 for sewer system and storm drains was cut down to \$20,000 and the \$14,500 for new laundries was approved. An item for \$6,100 for water pipe lines and right of way in the College Hills district was the last checked off.

"Those are the works which will be undertaken," said Superintendent Holloway "and I think that the good judgment of the people will declare them to be most necessary. The suggestion that the Planters' Association had anything to do with the Channel street sewer is absurd. That work was laid out over a year ago and is absolutely necessary. It will cost only \$550 for the labor, for we have the pipe on hand. Probably it would be worth \$1000 altogether."

KAHUNAISM IS RAMPANT IN KONA

WITCH DOCTORS ARE PRACTICING
THEIR ARTS ON SICK PEOPLE IN
THE HAWAII DISTRICT.

The kahunas are working overtime throughout the Kona district. Some days ago Mrs. Levi Perkins was taken ill with a fever. Some kahunas were first called and subsequently a physician was asked to prescribe for her. He did so but the kahunas forbade the woman taking the medicine. The result was that through lack of proper treatment the woman died. Her illness had not been especially serious and it is thought that had she followed the orders of the physician, she would have recovered her health.

Kahunaism is being practiced generally through the Kona section. Typhoid fever patients are being treated by the kahunas without any regard to the needs of the disease and in consequence, there have been deaths where the patients should ordinarily have recovered.

One reason for the natives practicing the witchcraft is the absence of government physicians in the district. There is one physician but the territory assigned to him is too extensive for him to be able to give the sick more than occasional attention unless they reside in his neighborhood.

TAFT AND THE YELLOW PERIL.
Hereafter there will not be much use in trying to get Mr. Taft excited about the yellow peril.
